Analysis of a sample of the article by the Bureau of Chemistry of this department showed that it consisted of an aqueous solution containing essentially salts of iron and potassium, strychnine, quinine, and bromids.

It was alleged in the libel that the article was misbranded for the reason that the above-quoted statements appearing upon the label of the article and in the circular accompanying it, regarding the curative and therapeutic effect thereof, were false and fraudulent, as the article contained no ingredient or combination of ingredients capable of producing the effects claimed.

On September 20, 1920, no claimant having appeared for the property, judgment of condemnation and forfeiture was entered, and it was ordered by the court that the product be destroyed by the United States marshal.

On December 17, 1920, the United States attorney for the Eastern District of Wisconsin, acting upon a report by the Secretary of Agriculture, filed in the District Court of the United States for said district a libel for the seizure and condemnation of 385 packages of dates, contained in cowhide wrappings, and 50 cans of dates, remaining unsold in the original unbroken packages at Milwaukee, Wis., alleging that the article had been shipped by the Chicago Cold Storage Co., by order of L. S. Nachman, from Chicago, Ill., on or about September 22, 1920, and transported from the State of Illinois into the State of Wisconsin, and charging adulteration in violation of the Food and Drugs Act.

Adulteration of the article was alleged in substance in the libel for the reason that it consisted wholly or in part of a filthy, decomposed, and putrid vegetable substance, and for the further reason that it was mixed with hair from the cowhide wrappings.

On January 8, 1921, no claimant having appeared for the property, judgment of condemnation and forfeiture was entered, and it was ordered by the court that the product be destroyed by the United States marshal.
